

Outlaw Paintball & Supply

What is Paintball?

Paintball is the fastest growing recreational sport in the world today! Teams of players compete against each other in an adult version of "Capture the Flag" or "Cops and Robbers". Armed with CO₂ powered airguns firing biodegradable gelatin capsules filled with brightly colored water-soluble dye, or "paintballs", the players use stealth, daring, and teamwork to outwit their opponents. Paintball is *fun*, fast-paced, exciting, and different.

Is the Game Safe?

YES! We are an APL safety certified field. Insurance statistics show that Paintball is safer than bowling, golf, or swimming. Players wear safety goggles and full facemasks during the game and referees supervise the action to ensure that all safety rules are strictly observed. The airguns, paintballs, and game rules have been carefully designed to increase player safety.

Who Plays the Game?

Executives, college students, truck drivers, doctors, lawyers, mechanics, salespeople, high school students, waiters, musicians, police officers, shift workers, production technicians; in other words, men and women from all walks of life and all ages.

Social Benefits of the Game

People who do not normally work and play well with others are forced to do so as the team has a common goal. Team spirit and friendship build as the game progresses. Tensions and pressures of everyday life are forgotten as the players slip into the fantasy world at *Outlaw Paintball & Supply*. Come play at the oldest field in Brazoria County and see what the excitement is all about !!
